GUAPA

GUAPA

The Guapa Collection is the perfect blend of Italian creativity and Spanish passion using clean lines represented by a noble and natural material used for this chair: hide leather. This elegant Italian designed collection featured hide leather body with a lattice cut-work backrest. The seat and backrest are upholstered in hide leather that is available in a choice of sophisticated neutral tones and a selection of contemporary colours.

The leather seat naturally combines comfort with strength while creating a light and shadow effect that extends its charm to the surroundings. Guapa is the solution suitable for waiting rooms and lounge areas of exclusive environments.

One of the unique modern collection of chairs we have seen in quite a long time. This collection of chairs by Midj, features a steel sled base that can be finished in black, white or chrome, timber rocking chair, swivel with castors or 4 leg base.
