drape

Simple and functional.
A minimalist pod for open offices.

Drape is a minimal-sized pod with sound-absorbing capability. It takes up as little as four carpet tiles to build and transform open offices into a hub of concentration. The outer side of the two-toned panels are colored with brighter hues to uplift the office, while the inside panels are covered with a calming gray tone.
Award

GOOD DESIGN

The perfect get-away space

The highly effective sound-absorbing panels reduce noise in open offices, giving you a quiet environment you need to focus on your task. The panels also prevent inside sounds from leaking.

Distraction-blocking panels to enhance workers' focus

*Conceptual Drawing

Fabric upholstered perforated steel panel (Interior side)

Glass wool

Fabric upholstered steel panel (Exterior side)

The slim profile panels are only 1 3/16" thick. The core of these panels have glass wool insulation for excellent sound absorption. The clean and straightforward design creates mini-environments for focus throughout the office while also adding aesthetic interest points and color to the workplace.

Performance
Acoustics : **NRC Value - 0.70** *Noise Reduction Coefficient
 SAA Value - 0.68 *Sound Absorption Average
 Note: Results are of the Felt applied panel. Value varies according to cover fabric.
 The measurement results comprise materials evaluations for panel units, and do not guarantee actual sound absorption effects.
Fire test : **ASTM E84 - Class A**
 Note: Results are of the Felt applied panel and Interlock applied panel.
TETRA
PENTA
TRI
Creative Geometric Configurations

"Tri" is the standard configuration consisting of three panels, perpendicular to each to make a U-shape. "Tetra" and "Penta" have an additional short panel that sits at a 120 degree angle at the entrance for an added level of privacy. A myriad of configurations are possible with your creativity.

Function

❶ ❷ ❸ ❹

It is only possible to see inside the booth from one angle (❸), ensuring you get the privacy you need to concentrate and focus.

The Tri requires less than 40″×40″ of floor space, a footprint similar to four carpet tiles.
1. When inside the booth, the user sits facing the inside corner, cutting visual interference from outside. The diagonally cut tabletop also secures ample workspace and legroom.

2. Tetra's small panel behind the user prevents others from looking inside, giving the user a feeling of security.

3. The slim profile panels are only 1 3/16″ thick and features an edge profile cut at a 60 degree angle. The two-toned panels create sharp visual.

Line Up

|		Tabletop H 28 3/8″			Tabletop H 39 3/8″			
		Tri	Tetra		Tri	Tetra	Penta	
Panel	Panel Height / Tabletop Height	75 9/16″ / 28 3/8″	59 13/16″ / 28 3/8″	75 9/16″ / 28 3/8″	75 9/16″ / 39 3/8″	75 9/16″ / 39 3/8″	75 9/16″ / 39 3/8″	
	Tabletop Orientation	Right / Left	Right / Left	Right / Left	Right / Left	Right / Left	Right / Left	
	Code 59 13/16″H	4WA11CN	4WA12CN	4WA12DN	–	–	–	
	Code 75 9/16″H	4WA11EN	4WA12EN	4WA12FN	4WA11EN	4WA12EN 4WA12FN	4WA13EN	
Tabletop - Code		4WA21AN	4WA21BN	4WA21AN	4WA21BN	4WA21AN 4WA21BN	4WA21AN 4WA21BN	4WA23AN 4WA23BN

The code for the left type and right type of Tri and Penta is the same. Variation with 75 9/16″ high panels would need lighting on the desk or from the ceiling. We recommend using a non-swivel chair for Tetra and Penta.
<Common specifications> Panel : Sheet metal with levelers, Surface : Fabric or Felt, Sound absorbent material : Glass-wool, Tabletop : Laminated work surface, Wire management tray : Powder coated steel
