Portameet
Modular office system

UCI

Introducing Portameet

The Portameet modular office system has been designed from the ground up with an emphasis on customisation and reusability in a highly flexible kit form. Utilising UCI Manufacturing's Australian-designed and made manufacturing capabilities, Portameet offers an ultra-flexible solution to Australia's changing commercial office environment, whether used as a breakout space, collaborative workspace, private pod or meeting room.

At the core of the design are the customisable interlocking wall modules. These modules can be used interchangeably throughout the system and can accommodate many different material and finish options providing Architects and Designers control over how Portameet looks, feels and is utilised. This also allows for a very speedy installation process and can be easily disassembled and relocated at the conclusion of a lease.

Each Portameet booth is incorporated with built-in power, lighting and ventilation, controlled by motion activated sensor. This ensures a comfortable and focused work environment for all occupants.

Portameet 2 x 2

Portameet - Phone Booth

Portameet Phone Booth serves as a perfect solution for phone calls, video conferencing, and short-term focused work in a busy office environment. Designed as a single-person booth that will fit a small worktop and single stool.

External Length / Width / Height:
1235mm x 1235mm x 2270mm

Internal Length / Width / Height:
1028mm x 1028mm x 2171mm

Portameet - 1 X 1.5

The extra length added to create the Portameet 1 x 1.5 turns this module into a single-person private workspace with ease. An ideal solution for phone calls, video conferencing, and medium-term focused work with enough space to incorporate a task chair and a small workstation.

External Length / Width / Height:
1630mm x 1235mm x 2270mm

Internal Length / Width / Height:
1423mm x 1028mm x 2171mm

Portameet 3 x 3

Portameet - 2 X 2

The larger format Portameet 2 x 2 is designed to comfortably serve as a meeting room of 2-3 people or a solo office able to accommodate a full-size workstation. The booth can also be customized to meet DDA requirements.

External Length / Width / Height:
2210mm x 2210mm x 2440mm

Internal Length / Width / Height:
2005mm x 2005mm x 2171mm

Portameet - 3 X 3

A collaborative meeting room is easily achieved with the 3 x 3 pod from the Portameet range.

This generous sizing can comfortably serve as a meeting or video conferencing room, with enough floor space to accommodate up to 5 people.

The booth can also be customized to meet DDA requirements or even add a TV mounting bracket.

External Length / Width / Height:
3186mm x 3186mm x 2440mm

Internal Length / Width / Height:
2980mm x 2980mm x 2171mm

Portameet Specification summary

Portameet Size Options
Phone Booth
1 x 1.5
2 x 2
3 x 3

Door Module Options
- Left hand or right hand opening standard pull handle
- Left hand or right hand opening DDA compliant pull handle

Acoustic Module
External material options included:
- Acoustic PET
- Powder Coated Steel
- Pinnable Fabric

Corner Shrouds
- Chamfered
- 90 Degree

GDMP Positions (one per acoustic module)
- 850H Left
- 850H Right
- 320H Left
- 320H Right

Glazed Module
Single glazing or double glazing frame
(Portameet booths do not come pre-installed with glass)

Soft Wiring Starter Locations
- Overhead
- In floor or wall source from corner shroud

Motion Sensor Control
Infrared motion sensor controls lighting and ventilation

- UCI standard Powdercoat colours available
- Custom colours available on request
(additional surcharges may apply)

Acoustic Finishes
- UCI House PET
- Woven Image - Echo Panel - Category 1, 2, 3 and 4

Optional extras
- Matching worktop

Product Lifecycle:
UCI is committed to its impact on the environment. Portameet is manufactured by UCI Manufacturing and has been designed for disassembly enabling reuse / reconfiguration.

With the use of basic hand tools Portameet can be broken down into its raw material elements providing the opportunity to recycle 95% of materials such as aluminium, steel, glass and plastic (Moulded plastic components greater than 50gm in weight have recycling logo identification).

Note: client specified materials are excluded from this statement
