

AMURI

# AMURI

## AMURI

Amuri's smart design offers a dynamic, modern and flexible design element to any workspace. It is designed to provide a clean and minimalist appearance in different configurations, adding style and efficiency to the workspace.

Adapting easily as business needs change, Amuri can be individually tailored to compliment your environment, promoting efficiency and effectiveness.

Together with UCI's Kinetik Rail System, it creates a working environment where users can have privacy when needed and are able to have an interactive and collaborative space to share their ideas.

Amuri is assembled and customized in Australia.
