

Hygiene Range

KEEPING YOUR
WORKPLACE SAFE

HYGIENE RANGE

UCI Australia has been working tirelessly to ensure we are across all current health and safety requirements recommended by International, Federal and State bodies. We have produced a range of products that are now relevant to the needs of all workplaces moving forward.

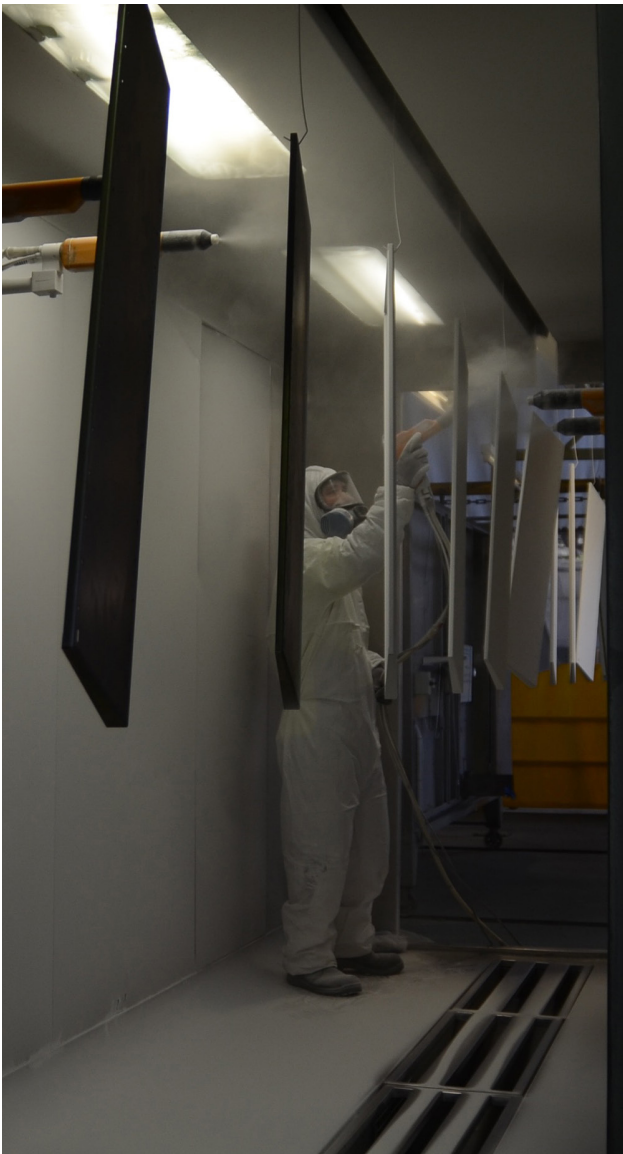

With the use of silver-ion antimicrobial powder coat, we can apply this Biocote technology to a range of high touch surfaces to act as a further defence against microbial growth keeping your home or workplace safe.

Our products have been designed to fit a broad range of industries from medical, hotels, restaurants and cafes, as well as school and universities all being made right here in Australia.

Interpon AM Antimicrobial Powder Coat

A SILVER- ION ANTIMICROBIAL POWDER COAT PERFECT FOR USE
ON HIGH TOUCH SURFACES IN THE WORKPLACE

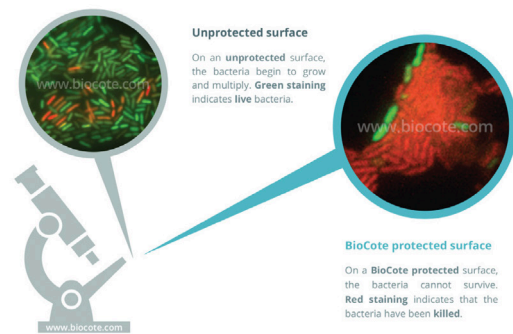

QUALITY CONTROLLED ANTIMICROBIAL TECHNOLOGY

When you use Interpon AM
you can rest assured that the
product coating will:

- Provide an additional level of protection against microbial growth on the coating's surface.
- Be easier to keep hygienically clean.
- Help prevent odors, stains, and deterioration.
- Be regularly validated and independently quality control tested to ISO 22196:2011.
- Continue to provide protection for the expected life of the product and the silver ion technology won't wear off, wash out or leach from the coating .
- Provide 24 hour protection, 7 days a week.

BIOCOTE TECHNOLOGY PROVEN UNDER THE MICROSCOPE

BIOCOTE. THE ANTIMICROBIAL BRAND YOU CAN TRUST.

Interpon AM is a product range that can be adapted for use in a wide range of applications.

In addition to the antimicrobial properties, it will meet the protective and decorative characteristics expected of a high-performance powder coating. It is designed to be used in areas where there is an obvious need to maintain a low level of microbes such as medical, food & catering. However, it is also useful in areas where there are high human traffic areas, e.g. office spaces, airports, schools and universities. It is available in White Satin and Black Satin powder coat.

CUSafe Screen

**ALLOWS BUSINESS TO PROCEED
PROVIDING CONNECTION AND PROTECTION**

CUSafe Screen is our range of acrylic screens that are safe, lightweight, impact-resistant, flexible and versatile.

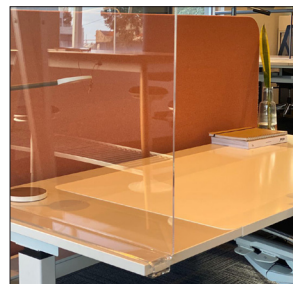

The CUSafe Screen is a practical divider that offers the perfect opportunity to structure and organise your personal space.

CUSafe Screen is exceedingly sturdy and durable. You can simply place it where you would like to facilitate people's interaction allowing social distancing and safety.

6MM ACRYLIC MATERIAL

HIGH GLOSS FINISH

Luma Desk

PROVIDING THE AUSTRALIAN MARKET WITH A COST EFFECTIVE
ALTERNATIVE SIT TO STAND DESK SOLUTION

UCI's Design team has developed the Luma desk to provide the Australian market with a cost effective alternative sit to stand desk solution over less reliable imports.

Like all UCI sit to stand workstations Luma is manufactured in Australia from Australian steel and aluminium. Incorporating class leading technology with Danish linear actuators and offering a 10 year warranty on all structural components and 5 years on the linear actuators.

AVAILABLE IN WHITE SATIN POWDER COAT

ELECTRIC SIT-STAND HEIGHT 620mm - 1270mm

WIDTH RANGE 900mm - 2400mm

DEPTH RANGE 600mm - 850mm

**COMPATIBLE WITH KINETIK RAIL SYSTEM
AND ACTIVE WORKING TOOLS**

Takeaway Desk

A PERFECT ERGONOMIC HOME OFFICE SOLUTION TO CREATE
A NEW WORK AND STUDY ENVIRONMENT

This desk has been designed and manufactured to fit anywhere, in your home or office. It comes as a flat pack with powder-coated metal legs that screw into the top, making it easy to be set up or stored away.

The Takeaway desk is a perfect inexpensive solution for creating an ergonomic home office fast.
