

tables - nt

Nt – features aluminium legs to achieve a simple, elegant form together with smart, stand-out styling. The tables can be nested for efficient storage. Nt series tables offer design and functionality to suit modern office spaces and they can be adapted for use in a variety of conference room situations. Nt is designed and manufactured by Okamura, and recognised with an iF Product Design Award.

Features:

- Aluminium legs
- Nesting
- Generous leg-room
- Levelling feet – adjust between 0 mm and 10 mm to compensate for uneven floors
- Two table-top colours
- Environmentally friendly – using a material called 4 Star, which has the lowest formaldehyde emission rate under JIS* regulations. In addition, reusable aluminium and recycled materials have been used.

* JIS regulation 4 Star emits an average value of 0.3 mg/L and a maximum value of 0.4 mg/L or less of formaldehyde

Options:
