Elevate the meeting space with a touch of high quality hospitality

Streamlined frame, comfortable seating experience, and efficient storage capability. MC is an user-friendly chair that brings a new sense of value to meeting areas.

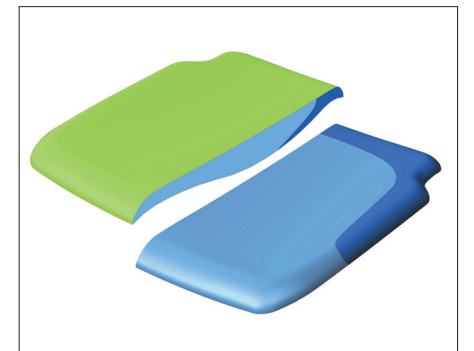

Spacious wide mesh seat

The seat is 450mm(17 3/4") width and upholstered in a mesh that has been applied with optimal tension to create a seat that flexes to support your body.

Safe flip-up structure

Designed not to get fingers trapped between the seat and frame when flipping the seat down. For safety, the seat won't flip up unexpectedly, when the seat back was pushed from behind.

Multiple density cushion

Our seat cushion is manufactured by molding urethane foam of two different degrees of firmness together, to create a single cushion. Providing softer support at the front and denser cushioning at the back.

Space-efficient nesting

The flip-up seats allows you to store the chair, without having to carry its weight. Chairs are nestable just 125mm(4 15/16") apart.
