Kwart is quick and easy to adapt to a space. It is easy to expand the shelving or to realise a completely different set-up. Kwart is very stable and can also be used as a room divider in an open environment.

**UK**

The Kwart modular cabinet system is an ingenious puzzle piece and can be assembled entirely according to your wishes. The bookshelf derives its name from the fact that four cross elements each form a closed whole; one element is always a quarter of the whole. A Kwart bookshelf is a collection of individual elements, consisting of corner, cross and T elements. An upholstered insert can be placed in the open elements. The elements can be linked by the classic dovetail principle and glue; screws or tools are therefore not necessary to create a configuration. Kwart is quick and easy to adapt to a space. It is easy to expand the shelving or to realise a completely different set-up. Kwart is very stable and can also be used as a room divider in an open environment.

**NL**

Modulair kastensysteem Kwart is een ingenieus puzzelstuk en kan geheel naar wens worden samengesteld. De kast ontleent haar naam aan het feit dat vier kruiselementen telkens een gesloten geheel vormen; één element is altijd een kwart van het geheel. Een Kwart kast is een verzameling losse elementen, bestaande uit hoek-, kruisen T-elementen. In de open elementen kan een gestoffeerd inzetpaneel worden geplaatst. De elementen zijn te koppelen door het klas-sieke zwaluwstaartprincipe en lijm, schroeven of gereedschap zijn dus niet nodig om een opstelling te creëren. Kwart is snel en eenvoudig aan te passen aan de ruimte. Het is makkelijk om de kast uit te breiden of een geheel andere opstelling te realiseren. Kwart is zeer stabiel en kan ook ingezet worden als room divider in een open omgeving.

**DE**

Das modulare Regalsystem Kwart ist ein geniales Puzzlespiel und lässt sich nach Wunsch zusammensetzen. Das Regal verdankt seinen Namen der Tatsache, dass vier Kreuzelemente jeweils ein geschlossenes Ganzes bilden: Ein Element ist immer ein „Kwart“, also ein Viertel des Ganzen. Ein Kwart-Regal ist eine Sammlung loser Komponenten, bestehend aus Eck-, Kreuz- und T-Elementen. In die offenen Elemente kann eine gepolsterte Einlegeplatte gesetzt werden. Die Elemente lassen sich anhand des klassischen Schwalbenschwanzprinzips miteinander verbinden. Leim, Schrauben und Werkzeuge sind also zum Aufstellen nicht nötig. Kwart lässt sich schnell und einfach an den Raum anpassen. Das Regalsystem lässt sich kinderleicht erweitern oder in einer völlig neuen Anordnung aufstellen. Kwart ist sehr stabil und kann in einer offenen Umgebung auch als Raumteiler verwendet werden.

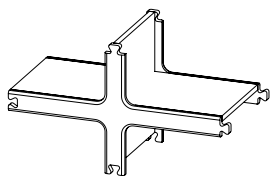

**FR**

Système d'armoires modulaire, Kwart est un ingénieux puzzle pouvant être composé au gré de vos envies. Le rangement doit son nom au fait que les quatre éléments croisés forment à chaque fois un ensemble fermé : un élément est toujours le quart de l'ensemble. Une armoire Kwart est un rassemblement d'éléments distincts, composé d'éléments d'angle, de croix et d'éléments en T. Un panneau tapissé peut être placé dans les éléments ouverts. Les éléments se relient entre eux au travers du principe de la queue d'aronde, de sorte que la colle, les vis ou les outils sont superflus pour créer un assemblage. Kwart s'adapte rapidement et facilement à tous les espaces. Agrandir le système de rangement ou réaliser un autre agencement est un jeu d'enfant. Kwart est très stable et peut également s'utiliser comme cloison dans un environnement ouvert.

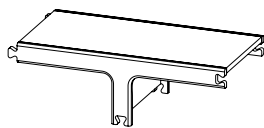

## KWART

Dimensions width, height, depth (in cm)

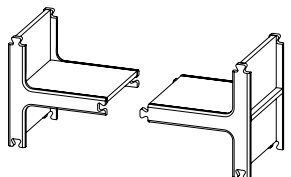

CROSS ELEMENT

70 x 39 x 35

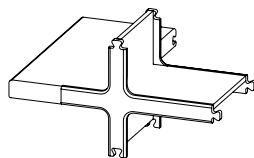

T-ELEMENT TOP

70 x 23 x 35

T-ELEMENT TOP FINGER JOINT

38 x 39,5 x 35

CORNER ELEMENT

70 x 39,5 x 70

# GENERAL INFO

## CASALA GUARANTY

Casala guarantees that delivered products retain their functional properties for a period of 5 years. The warranty period commences on the date of delivery and is not interrupted, impeded or renewed when a warranty service has been provided. We can handle complaints quickly when you send a clear description together with photos, the model number, the order number and the date of manufacture to Casala. You can find this information on the production sticker under the chair or table.

## CASALA CERTIFICATION

Casala continually strives to reduce the environmental impact in the development of our products. During development, care is taken to make responsible use of raw materials and production techniques. For many years Casala has been working with dedicated suppliers and producers conformed to the ISO14001 standard. This standard is used worldwide to start and assess environmental management systems. In order to ensure wood and paper products originate from responsibly managed forest.

Thanks to the established quality requirements and control of production processes, Casala's project furniture guarantees excellent quality, long life and durability.

## CASALA CIRCULAR ECONOMY

Casala realises it is responsible for the environment and the economic and social well-being of our world and considers it important to make a structural contribution. Our objective with regard to Circular Economy is simple: successful corporate social responsibility with focus on a sustainable world. During the design phase we determine the products and materials and examine their impact and behaviour in the product chain. These choices are the basis of adequate management of products and materials. For many years Casala has been working with raw materials that mainly originated in Western Europe. The required transport kilometers are thus kept to a minimum. This contributes to the lowest possible CO-2 emissions.

Chairs are frequently discarded after use and seen as waste. This is unnecessary, as the parts are often not at the end of their life cycle. Therefore Casala chooses to refurbish various items from our product range and offers CE guarantee on multiple programs.

When purchasing new furniture, you decide in consultation with Casala whether you want to make use of the CE guarantee. Casala CE comes with an official certificate. The moment you want to replace the furniture, you can return this CE certificate. Every CE-certified product will receive a cash refund, a nice start for the purchase of new furniture. This contributes to a more sustainable world, the foundation of Circular Economy. Result: a chair with the same quality and warranty conditions as a new chair.
